IN PEOPLE | Gold
Until 2021

The Role

Are you a self motivated team player with a passion for providing a first class engineering service? Are you flexible on the shift pattern that you can work and do you have a proactive approach in the planning and undertaking of scheduled maintenance? If so, we have a great opportunity for you to join our engineering team as a multi-skilled maintenance engineer.

Our Company

Portmeirion Group are a successful company with one overall aim: to be the leading force in the global homewares sector by growing our six amazing brands. We have a culture whereby we work together as one team; we are respectful, think global, push boundaries, speak up, own it, love our jobs and our brands, work hard and embrace tomorrow today.

What you will need to be successful:

You will need to hold an Engineering Qualification at Level 3 or above in addition to having electrical fault finding and installation experience, preferably you will have your 18th edition certificate. You will need to have at least five years experience within a similar setting, preferably experience in working with ceramic machinery and kilns along with experience with PLC's, hydraulics and pneumatics. It goes without saying that you will also need to be familiar with safe working systems such as permits and R.A.M.S.

Sounds interesting? If so, forward your CV to Sharon in our HR team who will look after your application journey!
